WHY SANY TELEHANDLERS?

VERSATILE. AGILE. PERFORMERS.

SANY'S telehandlers are versatile, agile performers on a jobsite as they lift, move and place materials, allowing contractors and construction firms maneuverability in confined areas or where high reach is needed. With well-tuned controls for operator precision and a higher standard spec than competitors, they are built to handle heavy loads on rugged terrain with ease. All SANY telehandlers are backed by a 3-year/3,000-hour industry leading standard warranty.

INDUSTRY'S STRONGEST STANDARD WARRANTY | 3-YEAR 3,000 HOURS

* Warranty applies to 2023 Telehandlers, Graders, Rollers and Crane models only.

PROUDLY MADE FOR AMERICA

Since 2006, SANY America has been investing in and growing across the U.S. From our 272-acre facility in Georgia, where we employ over 300 American employees, to our growing dealer network that stretches from Maine to Washington, SANY America is dedicated to building business across America.

Our industry-leading warranty is proof of SANY's durability. Through our local service network SANY proudly shows continuous support to our machines and the people who operate them. SANY America is dedicated to helping American-owned businesses thrive with our commitment to value, performance and service.

THE JOBSITE MVP

SANY's entire telehandler family boasts spacious, comfortable cabs and high-quality components like powerful Deutz engines. They are durable, reliable and built to withstand harsh working conditions and heavy use.

Every telehandler is designed with the operator in mind. They are easy to operate with intuitive controls and give operators enhanced visibility and awareness with the backup camera and reverse sensing system. This makes them ideal for operators of all skill levels.

WE'VE GOT YOUR BACK

To provide peace of mind and ensure maximum uptime, SANY backs all its equipment with robust standard warranties. That's our commitment to keeping your fleet running at peak performance. Our network of local dealers will partner with you for routine maintenance and be there for warranty repairs. You can trust SANY to keep you moving, year-round.

THE SMOOTH, PRECISE CONTROL COMES STANDARD

Telehandlers are the jobsite jack-of-all-trades, and SANY telehandlers make it all look easy. They're built with a well-tuned proportional electronic-to-hydraulic control system that provides a smooth, ramped response to operator inputs. Smooth and precise, SANY telehandlers eliminate the jerky movements that are typical of other telehandlers.

SANY telehandlers are outfitted with a tilt steering wheel and standard single joystick for intuitive operation of the boom, stabilizers, sway and three steering modes. A centered rear-steering indicator enables the operator to align the front and rear axles easily when changing steering modes to prevent machines from walking sideways and scrubbing tires. Axle-mounted stabilizers enable more precise leveling of the frame.

WELCOME TO THE COMFORT ZONE

With one of the roomiest cabs in the industry, SANY telehandlers give operators room to move. And the moving is easy thanks to SANY's well-tuned proportional electric controls. There's no jerking, lurching or abrupt movements.

SANY telehandlers offer a choice of open or closed cabs. Closed cabs feature independent upper and lower doors. Both doors can be opened all the way, while the lower door can be locked open without interfering with the rear tire. Bad weather is no match for progress, and it's certainly no match for the SANY telehandler. With a dual-speed fan, multi-zone heat and programmable air conditioning, and front and top wipers, SANY operators can easily outmaneuver the worst conditions.

WHEEL PROTECTION

All SANY telehandlers come standard with solid tires, which offer extra durability and last three to five times longer than foam-filled tires. Solid tires are cushioned to benefit operators and deliver added value to owners by reducing the maintenance and replacement costs found in other manufacturer machines. SANY telehandlers are also equipped with a standard full-fender package for added protection.

SAFETY

Visibility is paramount to safety, and SANY delivers with optimized sightlines and standard reverse sensing and backup cameras. A standard LED lighting package enhances visibility when the workday starts early and ends late. Inside, SANY telehandler cabs are ISO-certified for rollover and feature a 3" wide seat belt.

SERVICE, VALUE & SIMPLE OPERATION

EASE OF SERVICE

When we say that SANY machines are built to endure, we're really talking about service. SANY equipment is intentionally designed to be easily and efficiently serviced, with features such as wide compartment doors and ground-level access to make maintenance more efficient. Because ease of service means back in service.

UNMATCHED DURABILITY

All SANY equipment is built to endure, and the telehandler family is no exception. SANY's rigorous testing includes 300 continuous hours of operation, 10,000 laps around a rough terrain test course and 20,000 cycles on the lift structure at the full rated load. When you step into a SANY telehandler, you're met with unmatched durability.

SANY telehandlers are thoughtfully designed to balance protection with necessary access. While the side-mounted engine makes routine maintenance and service easy and accessible, other parts are intentionally covered. SANY's fork-leveling cylinder is located inside the chassis. Cable and hose management is contained inside the boom, and the extend cylinder is located on top of the boom to protect it from damage during lowering.

RELIABILITY

Telehandlers are a rental fleet must-have, and the SANY telehandler is configured to meet the demand and deliver reliable return. Pair SANY's low acquisition costs with added standard features, yielding a lower cost of ownership, and SANY telehandlers are hands-down the best investment possible. And SANY backs every telehandler with the industry's best warranty—3 years/3,000 hours.

LOW-COST FINANCING

With SANY Capital, you can take advantage of a network of lenders offering different types of financing programs to meet your requirements when purchasing SANY equipment. It's a more flexible way to get heavy equipment for your business with customized financing solutions. So, go ahead, pick out the SANY equipment you need to tackle your next big project. And rest easy knowing that SANY Capital is standing by to make sure your financing process is always fast, simple, and convenient. SANY Capital and its lender partners stand behind you with 100% financing options covering your entire equipment purchase, including attachments, delivery, and taxes.
