

80D-9

With Tier4 Final Engine installed

MOVING YOU FURTHER

HYUNDAI HEAVY INDUSTRIES

 **HYUNDAI**
CONSTRUCTION EQUIPMENT AMERICAS, INC.

Some of the photos may include optional equipment.

Your Satisfaction is **Our Priority!**

Hyundai introduces a new line of 9-series 8 ton diesel forklift trucks. The newly designed 4 wheel counterbalance trucks provide every operator comfortable driving, increased productivity and easy maintenance.

New Diesel Forklift with Proven Quality and Advanced Technology

- Maximum performance
 - Spacious operator's cab
 - Load indicator
 - OPSS(Operator Presence Sensing System) for safe operation
 - Easy serviceability
 - Hi-mate (Remote Management System)
-

Some of the photos may include optional equipment.

High Efficiency & Optimal Performance

Some of the photos may include optional equipment.

Cummins QSF3.8 Engine

100.6hp/2,200rpm
306lbft/1,600rpm

Powerful Engine

The 4 cylinders turbo-charged engine is built for power, reliability and economy. This engine meets EPA, CARB Tier-4 Final and EU stage IV emission regulation.

High Pressure Common Rail Fuel System(HPCR)

Upgraded HPCR System provides excellent start

Ability & Emission Control

- Combustion efficiency enhancement
- Low noise, Low vibration

Selective Catalytic Reduction(SCR)

- Reduces NOx emissions to near-zero level
- NO DPF

Powerful engine and high technology systems provide you with enhanced performance and highest productivity.

80D-9

Full-Automatic Transmission

Full-automatic transmission gives easy, convenient handling and soft, smooth shifting. The operator can select two kinds of automatic modes.

Fully Hydrostatic Power Steering

The hydraulic steering system always guarantees smooth and flexible steering, preventing over-run and kick-back.

Highly Durable Split Type Drive Axle

The durable drive axle provides fast travel speed and quiet travel under any heavy load conditions to boost work efficiency.

Wet Disc Brake System

The wet disc brake system is virtually maintenance free and is enclosed to protect from dust and water.

Increased Mast Tilting Angle

Utilizing the mast tilting angle of 15 degrees forward and 10 degrees backward, the operator can perform loading and unloading jobs safely and rapidly. (Optional angles are available; 15/6degree & 6/6degree)

Max. Gradeability (loaded/Unloaded)

Model	%
80D-9	35.2 / 26.5

Max. Travel Speed (Unloaded)

Model	mph
80D-9	22

Faster Travel Speed & Better Gradability

The powerful engine provides dynamic acceleration, excellent gradability and optimal travel speed on any tough terrains or slopes.

Best Convenience & Optimized Ergonomics

Spacious Operator Cabin

Some of the photos may include optional equipment.

The newly designed cab optimizes space for a wide field of view and operator comfort.

Centralized Instrument Switch Panel

MP3 CD Player

Grammer Seat (STD)

An attractive and adjustable seat, based on a human engineering design, provides great comfort and is highly durable. And the angle of the armrest can be adjusted to reduce the fatigue of the driver.

- Applied the weight of the driver(45~170kg)
- ELR type seat belt standard
- Heater and Head Rest (Option)

The ergonomically designed cab provides full support and comfort to the operator.

80D-9

Quick Response of Operating Control Levers
Minimal operator effort is required for precise, safe and productive control.

Ergonomically Positioned Pedals
Based on human engineering, the accelerator, brake and inching pedals are optimally positioned for the operator's convenience.

Adjustable Steering Wheel
Steering wheel with horn button can be adjusted by a lever on the right-hand side for the most comfortable operator position.

High-Output Air Conditioner & Heater
Our air conditioner and heater with high output and multi-directional air flow provides a dependable and comfortable work environment.

Advanced **Safety**

Direct Flow Air Cleaner

Cummins air cleaner introduced to enhance the performance of Tier-4 engines. More compact and efficient than previous cylindrical style air cleaners, it offers simple filter element change with capability to extend intervals

Electrically Monitored Air Filter

Air cleaner sensor alerts the operator of a clogged air filter to allow replacement before damage occurs.

Exterior

A strong overhead guard, which meets ISO 6055 regulation, protects the operator in hazardous jobs.

Front Mudguard STD.

Front mud guards protect the equipment from debris that could enter by the front tires.

Cab Tilt System

The cab tilt system makes servicing of all power train components quick and easy. An electrically assisted hydraulic actuated cylinder tilts operator cab to right side about 42.5 degrees for open access to truck components.

Under Cover (Option)

The Under cover protects the engine and components from ground dusts and debris which helps lengthen components life.

The safely designed driver's space makes your operating more comfortable.

80D-9

**OPSS
(Operator Presence Sensing System)**

When the operator is not in the seat all mast and drive movements are inoperable.

Lift Lock

Tilt Lock

Drive Lock

Some of the photos may include optional equipment.

Highly Durable Carriage

The carriage is very strong and is constructed by high tensile structural steel which has a excellent durability.

Large Footboard & Handle

Wide "open" step offers convenience and safety when entering and exiting the truck.

Excellent Lights

- Various position of work lamp provides the operator great visibility and a safe operating environment.
- On Cab:
 - 2 Front head lamps
 - 1 Rear work lamp
 - 1 beacon lamp (optional)
- LED Rear Combination lamps

Bright, Protected Head Lights

Fast and Easy **Maintenance**

Tilting Cab & Large Engine Hood

Highly accessible engine compartment assures fast and efficient maintenance.

Some of the photos may include optional equipment.

Easy Change Air Cleaner

This air filter is easily accessible for cleaning or replacement.

Cabin Air Fresh Filter

The internal pressure is maintained to be slightly higher than that of outside to exclude dust and to reduce noise levels.

An ideal arrangement of components ensures easy access and convenience for maintenance.

80D-9

Grease Inlet

Maintenance Free Battery

Rear View Camera (Option)

The rear view camera provides great rear visibility and the monitor supports 4 camera channels for operator convenience.

Pre-Cleaner

Fuel Cap

Some of the photos may include optional equipment.

Master Switch

A master switch disconnects the battery power to protect the electrical system from excess electrical drainage.

Maintenance Management Display

Engine Start Limit

Specification

Identification		80D-9
1.1	Manufacturer	Hyundai
1.2	Manufacturer's model designation	80D-9
1.3	Drive: electric (battery or mains), diesel, petrol, fuel gas, manual	DIESEL
1.4	Type of operation: hand, pedestrian, standing, seated, order-picker	seated
1.5	Load capacity / rated load	lb 17,400
1.7	Load center distance	c in 24
1.8	Load distance, center of drive axle to fork	x in 27
1.9	Wheelbase	y in 98
Weights		
2.1	Service weight	lb 25,591
2.2	Axle loading, loaded front/rear	lb 38,034 / 5,384
2.3	Axle loading, unloaded front/rear	lb 11,310 / 14,484
Wheels, Chassis		
3.1	Tires: solid rubber, superelastic, pneumatic, polyurethane	pneumatic
3.2	Tires size, front	9.00-20-14PR
3.3	Tires size, rear	9.00-20-14PR
3.5	Number of wheels front / rear (x=driven)	4 x / 2
3.6	Track width, front	b10 in 64
3.7	Track width, rear	b11 in 67
Basic Dimensions		
4.1	Mast / fork carriage tilt forward / backward	α/β degree 15° / 10°
4.2	Lowered mast height	h1 in 105
4.3	Free lift	h2 in 6
4.4	Lift height	h3 in 120
4.5	Extended mast height	h4 in 172
4.7	Overhead guard height	h6 in 104
4.8	Seat height / standing height rel. to SIP	h7 in 65
4.12	Coupling height	h10 in 20
4.19	Overall length	l1 in 209
4.20	Length to face of forks	l2 in 156
4.21	Overall width	b1 in 86
4.22	Fork dimensions	s/e/l in 3 x 7 x 47
4.23	Fork carriage ISO 2328, class / type A,B	Class IV
4.24	Fork-carriage width	b2 in 89
4.31	Ground clearance under mast, loaded	m1 in 10
4.32	Ground clearance center of wheelbase	m2 in 12
4.33	Aisle width for pallets 1,000 x 1,200 crossways (L x W)	Ast in 220
4.34	Aisle width for pallets 800 x 1,200 lengthways (W x L)	Ast in 228
4.35	Turning radius	Wa in 146
4.36	Smallest pivot point distance	b13 in 1,354
Performance Data		
5.1	Travel speed, unloaded	mph 22
5.2	Lift speed, loaded / unloaded	ft/min 81 / 94
5.3	Lowering speed, loaded / unloaded	ft/min 98 / 98
5.5	Max drawbar pull, loaded	N 70,010
5.7	Gradeability, loaded	% 35.2
5.10	Service brake	FOOT(Hydraulic)
Engine		
6.1	Engine manufacturer / type	CUMMINS / QSF3.8
6.2	Engine power acc. To ISO 1585	hp/rpm 100.6/2200
6.3	Maximum torque	lbft/rpm 306/1600
6.4	No. of cylinder / displacement	/ cc 4/3800
6.5	Fuel consumption acc. To VDI cycle	ℓ/h 8.5
Other Details		
8.1	Type of drive control	Full Auto
8.2	Operating pressure (system / attach)	kg/in ² 463 / 23
8.3	Oil volume (hydraulic)	ℓ 115
8.4	Sound level (at driver's ear according to DIN 12 053)	dB(A) 78.6
8.5	Trailer coupling, type DIN	Pin
