

Automated Tugger Train

P-MATIC

11,000 lb. Capacity

The Linde P-MATIC is the automated tugger-train specializing in high volume horizontal material transport.

Automated Guided Forklifts [AGF's] are the future of efficient material flows. They mitigate labor market dependency, take over repetitive transport tasks, increase throughput volume, and reduce the error and accident rates in the warehouse. Linde Automation offers a wide range of cutting-edge automation solutions for pallet handling warehouse trucks from the MATIC Series. All models are platformed on series manufactured trucks with integrated intelligent navigation, safety technology, and software.

- The Linde P-MATIC automatic tugger-train is designed for hitching carts and trailers up to 11,000 lbs total.
- It is frequently used in warehouse and production logistics for the delivery and take-away of raw materials, packaging materials, work in progress, finished goods, and for the disposal of waste products.
- Within a milk-run application, multiple routes with several stations can be replenished by a P-Matic fleet.
- Lean tugger train systems allow for the movement of multiple loads at the same time and combine in-and outbound flows.

LINDE P-MATIC

Characteristics	Manufacturer		LINDE
	Manufacturer's type designation		P - Matic
	Power unit		Battery
	Operation		Seat
	Load capacity/Load	(lb)	6,600 - 11,000
	Overall size (LxW)	(in)	70 x 32 - 36
	Travel Speed (With load)	(mph)	4.4
	Navigation		Laser Hybrid Navigation
	Laser navigation scan height	(in)	98
	Standard Battery Voltage/Rated Capacity	(V) (Ah) PbS	24 / 270
	Max floor incline		Subject to application
	Operation capability		Automated & Manual auxiliary operation
	Amount of carts/trailers		2-6
	Principal equipment compliance standards/norms		ANSI B56.5 Part III Machinery Directive (CE) requirements ISO3691-4 standard NFPA-70
Common options	Blue Spot		
	Automatic charging		

NAVIGATION LASER

Vehicle localization

EMERGENCY STOPS

AUTOMATION KIT

Vehicle control and interface to the AGF Manager

CONTROL LIGHTS

Display of driving direction & alerts

USER INTERFACE

With touchscreen

SECURITY LASER SCANNER
