

# NARROW AISLE, SINGLE, DOUBLE REACH TRUCK R15SX / R17SX / R22SX

**3,000 - 4,500 lbs. Capacity**

Series 5195

- With over 70 years of designing and manufacturing the most reliable forklift trucks in the industry, Linde understands narrow aisle applications
- AC components allow controlled acceleration, smooth maneuvering, and responsive braking. Cushioned hydraulic functions and mast staging are also included with power lowering
- Comfort and visibility in all load handling functions are enhanced with a clear view overhead guard. The operator does not have to lean outside the frame of the truck to see loads at extended heights
- The service compartment allows full access to the main components with a service door that fully opens. On-board diagnostics allow Linde technicians to quickly and effectively check and address truck systems

# STANDARD & OPTIONAL EQUIPMENT

## STANDARD

- Side stance position
- 24V system (includes 350 Amp battery connector)
- Single reach mast (24" extend) with 33" wide class II hook type carriage
- Double reach mast (42" extend) with 33" wide class II hook type carriage (R15SX)
- Tilting carriage: 3° forward / 4° backward
- Rear post operator protection
- Operator's overhead guard
- Comfort floormat
- Cushioning soft hydraulics
- Reduced travel speed with carriage extended
- Control handle with simultaneous hydraulic functions
- Forks 1.5" x 4" x 42" class II hook type carriage (R17SX, R15SX)
- Forks 1.75" x 4" x 42" class II hook type carriage (R22SX)
- 5" x 4" poly articulating tandem load wheels (R17SX, R15SX)
- 6" x 4" poly articulating tandem load wheels (R22SX)
- 13.5" x 5.3" polyurethane drive tire construction
- Integral side-shift standard
- 42.0" L x 14.6" W x 38.75" H battery compartment
- AC traction, lift/lower and steering
- Standard connection
- Low step height
- Cup holder
- UL classification type "E"
- Key switch start
- Steering returns to 0 upon start
- Battery rollers
- Power disconnect
- Padded operator compartment
- Static strap
- Electronic horn
- 42" load backrest
- Programmable traction speed and acceleration
- Electric power steering
- Dual polyurethane caster wheels
- LED display
- Back lighting
- Battery discharge indicator with lift interrupt
  - Hour meter, truck, traction and hoist pump
  - LED status indicators and symbols
  - Steer wheel angle graphic indication
  - Truck speed in mph or km/h

## OPTIONAL

- 36V electrical system
- UL classification "EE"
- Reverse steering
- Power lower unloaded
- Regenerative lower loaded (standard on the R15SX)
- Laser position indicator
- Camera system for extended lift heights
- Fork height indicator
- Safety glass mast guard
- See-through armored glass OHG
- Pin code / toggle switch
- Environmental construction
  - Cooler freezer conditioning: -26°F to 110°F
  - Corrosion
  - Food grade: 32°F to 110°F
- Various mast options available
- Various fork length options available
- Keyless start
- Poly siped tires
- Poly x groove tires
- 48" load backrest extension
- Back-up / motion alarms
- Amber strobe light
- Linde BlueSpot™ front
- Linde BlueSpot™ back
- Operator desktop light
- Dual headlights
- Rear work light
  - Operator fan
  - RF utility pole
  - Parts manual
  - Service manual

## RIGHT ANGLE AISLE STACKING

R17SX - 24V					
Truck with 14.5" Battery Compartment and 34" ID					
3 Stage - 4" Between Loads					
Pallet Length (in)	Pallet Width (in)				
		36	40	44	48
	36	93	94	95	97
	40	96	97	98	100
	44	99	100	101	103
48	103	104	105	106	

Add 2" for 16.5" battery compartment  
Add 2" for 18.5" battery compartment

R22SX					
Truck with 16.5" Battery Compartment and 40" ID					
3 Stage - 4" Between Loads					
Pallet Length (in)	Pallet Width (in)				
		36	40	44	48
	36	95	96	97	99
	40	98	99	100	102
	44	102	103	104	105
48	105	106	107	108	

Add 2" for 18.5" battery compartment  
Add 2" for 20.5" battery compartment

R15SX					
Truck with 16.5" Battery Compartment and 42" ID					
3 Stage - 4" Between Loads					
Pallet Length (in)	Pallet Width (in)				
		36	40	44	48
	36	100	101	102	103
	40	103	104	105	107
	44	107	108	109	110
48	111	112	112	113	

Add 2" for 18.5" battery compartment  
Add 2" for 20.5" battery compartment  
For right angle stack, add min. 6" clearance for ease of operation

# FEATURES

Cushioned Hydraulics

Power Lowering

Visibility

Operator Comfort

Open Access to Components

## Linde Series 5195 Five Features

**Operator Comfort:** The operator compartment's adjustable steer tiller and control handle, coupled with the widest compartment in the industry, keeps an operator comfortable and productive all day long. **Open Access to Components:** With a service door that opens well beyond 90 degrees, a technician has full and easy access to all necessary componentry, allowing for the truck to get back in service faster.

**Power Lowering:** Linde's powered lowering drastically increases lowering speeds, reducing overall cycle times and pumping energy back in to the battery. Extended run times and reduced cycle times make the Series 5195 an efficient material handling solution.

**Cushioned Hydraulics:** Linde's cushioned hydraulic system allows for delicate handling of any load, increasing operator efficiency while helping to guard from product damage.

**Visibility:** Linde's glass overhead guard provides an operator with zero obstructions while looking through the overhead guard. This increases fork accuracy, and in turn, decreases cycle time and product damage.
