Working Together For A Shared Future

Product features and advantages:

- The compact size, with low center of gravity, small turning radius and flexible operation.
- Integrated waterproof touch panel design, the LCD can display working parameters and fault code, which is easy to adjust parameters and fault diagnosis.
- Three speed modes and adjustable water flow.
- The independently developed controller has the functions of motor overload and battery low-power protection, effectively extending the life of the motor and battery.
- One touch ECO model to reduce the power and noise level for suction motor, suitable for low noise request place.
- One touch electric lifting/lowering of brush and squeegee-holder, automatic lifting of squeegee-holder for reverse driving, which is safe and efficient.
- Double brush/pad design, innovative brush/pad connection, the brush/pad is easy and convenient to load or unload.
- 120 liter large capacity for solution tank and recovery tank design, effectively reduce the number of adding and releasing water. Automatic alarm for solution tank empty and recovery tank full.
- Large opening of reversible recovery tank, tool-free disassembly design, easy to clean and maintain.
- The seat is equipped with the safety switch, and the scrubber will automatically stop when the driver leaves the seat.
