Linde

ELEVEX™
Material Handling Solutions

Electric Counterbalance Truck

E20 - E35

4,000 - 7,000 lb. Capacity

Series 1252

- The twin-motor front-wheel drive together with combi steering axle facilitates maneuverability
- Optimally suited for dynamic, indoor/outdoor applications with excellent maneuverability and compact design
- Available with lead-acid and lithium-ion battery
- Wireless truck data transmission assists with fleet management programs
- Data transmission comes standard and has the ability to be embedded within digital logistic processes.

STANDARD & OPTIONAL EQUIPMENT

		E 20 - E 35
Operation/ Load Handling	Operator assistance	
	Linde Curve Assist – automatic drive speed reduction when cornering	●
	Electrical seat belt monitoring – Visual and acoustic feedback	●
	Linde Load Assist – increased safety at high lift heights	●
	BlueSpot and TruckSpot – optical warning signal for pedestrians and drivers	○
	Load weight indicator	○
	Speed limitations	○
	Restraint systems (different options)	○
	Lighting: LED Stripes	○
	Lighting: VertiLight	○
	Digitalization	
	Linde Connect.Desk – local fleet management & telemetry	○
	Pre-Operation Checklist – individualized daily protocol	○
	Impact sensing & reporting	○
	Data transmission via Wi-Fi or cellular	○
	Linde Guardian – pedestrian awareness and zone speed control	○
	Double pedal control – stepless acceleration and fast reversing	●
	Single pedal control – stepless acceleration	○
	Linde Load Control – individual electronic control levers fully integrated in the armrest of precise control of all hydraulic functions	●
	Innovative decoupling concept with ring bearings for lowest human vibrations	●
	Ergonomic and safe truck access due to a low entry step and handle bar at front pillar	●
	Tilt adjustable steering column	●
	Overhead guard comfort for maximum head clearance	●
	Operator's seat – mechanical quick weight adjustment	●
	Various seating options such as heating, air suspension, active seat ventilation, longitudinal suspension	○
	Operators seat – Swiveling seat	○
	Color 3.5" LED display with steering angle indicator, tilt angle indicator and remaining travel indicator	●
	Color 7" LED multifunction display integrates additional functions e.g. cameras	○
	Top screen armored glass	○
	Alloy doors with openable window and door monitoring	○
	Illuminated clipboard	○
	Fully integrated heater	○
	Fully integrated air conditioning with defog function	○
	Workplace	
	Top mounted tilting cylinders – including maintenance free bearings	●
	Best visibility through asymmetric, nested mast profiles on standard, duplex, triplex mast	●
	Electronic damped tilt stop	●
	Hydraulic accumulator for high driving comfort and less wear	○
Drive System	Mast	
	Integrated sideshift with full lift capacity	○
	Integrated fork positioner "view" for high residual capacities and optimized visibility	○
	Forks	
	Combi steering axle	●
	Super Elastic (SE) tyres	●
	Closed Shoulder Tyres CS 20	○
	Pneumatic tyres	○
	Antistatic, non marking tyres	○
	Anti-spray mudflaps front and rear	○
Axles & Tyres	Two motor front wheel drive	●
	Synchronous reluctance motor for lift and drive function	●
	Power setting efficiency, economy, performance	●
	Linde combi-steering axle – excellent maneuverability in smallest areas	○
	Automatic parking brake	●

● Standard equipment ○ Optional equipment

Load capacity for triplex mast and fork carriage

CHARACTERISTICS

Driver workplace

Ergonomics

- Spacious driver's cab and ergonomic seat ensure fatigue-free working
- Optimum view of both the load and surroundings
- Layout of control elements reduces the physical strain on the driver
- Separation of the workstation, mast, and drive and steering axles reduces physical strain on the operator when driving over rough terrain

Linde combi steering axle

Handling

- The twin-motors front-wheel drive together with combi steering axle provides exceptional maneuverability
- Overhead tilt cylinder and warp-resistant mast design ensure safe load handling
- Synchronous reluctance motor for lift and drive functions increase power and energy efficiency
- A choice between lead-acid and lithium-ion battery

All-round visibility

Safety

- Chassis, A-pillar, mast, and roof construction provide the driver with optimum visibility of the load and surroundings
- The truck's low center of gravity reduces the risk of tipping
- Linde Curve Assist reduces speed in relation to the steering angle when cornering
- Linde Load Assist reduces the risk of tipping accidents when moving loads at height
- Automatic parking brake and ramp-hold function

Service

- Long service intervals e.g. 6000 h / 3 years hydraulic oil / filter change
- Easy access to main components
- Driver display shows all important truck information to the driver
- Remote fault diagnosis and firmware updates can be conducted without a service technician; resulting in lower operating costs
- Modular assemblies allow for quick replacement, shortening downtime during repairs
