The New Scrubmaster
NB 380
Walk Behind Scrubber

NEW ARRIVAL

ELEVEX™
Material Handling Solutions

The buckle type brush is replaced with simple and convenient.

The fork skirt brush designed to prevent the brush of the brushing out of water, the V-type squeegee design to avoid sewage overflow.

Integrated water proof touch panel design, easy and fast operation

Low energy control system, one full charge can keep machine running 1.5~2 hrs with standard 24V32AH lead-acid battery.

Foldable handle design for less storage space.

► NB380 FEATURES AND ADVANTAGES:

- NB380 is a mini-size walk-behind scrubber machine, equipped with a brushless brush motor and vacuum motor, low noise, high efficiency, energy saving, longer lifetime, and low maintenance cost.
- Compact size with washing width 380mm, easy to work in narrow areas.
- Low energy consumption control system, one full charge can keep the machine running 1.5~2 hours with standard 24V32AH lead-acid battery.
- Intelligent waterproof control panel, one button start, water volume can be adjusted, user-friendly design for easy operation.
- Products can be used in warehouses, shopping malls, workshops and other places, with a wide range of application scenarios.
- Aluminium die-casting squeegee frame, good rust prevention and the best water suction performance.
- Water skirt effectively prevents sewage splashing and controls clean areas.
- Clean water tank separation, cleaning and maintenance are more convenient.
- Tool-free disassembly design for the whole squeegee system, easy to change the squeegee blade. Foldable handle design for less storage space.

► THE BASIS FOR CLEANLINESS:

The new **NOBLELIFT NB380** combines high performance with ease of use in a compact design. With a working width of 380mm, floors can be cleaned quickly, efficiently and thoroughly with a disc brush or pad. Many well-thought-out details support the user in his daily work. For example, the ergonomically shaped, the good accessibility of all components facilitating daily maintenance or the cover of the solution tank filler neck, which acts as a dosing aid for cleaning chemicals.

Clean water tank separation,
cleaning and maintenance more
convenient
